

# POINSETTIA PLUS • POINSETIA MÁS

18-6-20

PART #11675

**DIRECTIONS FOR USE:** Plantex® 18-6-20 Poinsetta Plus is recommended for use on all plants depending on the water quality. For tender plants, spray applications and outdoor application in hot weather, use one half the recommended rate of application. Plantex is soluble at the rate of 2.5 - 4 lbs. per gallon of water. Use warm water for fastest dissolving. Store in a cool, dry place.

**CAUTION:** This fertilizer contains boron, copper, iron, manganese, molybdenum and zinc, and should be used only as recommended. It may prove harmful when misused. This fertilizer is to be used only on soils which respond to molybdenum. Do not apply to crops that will be grazed by ruminant animals. Crops high in molybdenum are toxic to ruminant animals. Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

The micronutrients within Plantex are available at a greater pH range due to the presence of DTPA and EDTA chelating agents.

**INSTRUCCIONES DE USO:** Plantex® 18-6-20 Poinsetia Más es recomendado para su uso en toda planta, dependiendo de la calidad del agua. Para plantas tiernas, aplicaciones en rociador y aplicaciones en exteriores en clima cálido, use la mitad de la tasa de aplicación recomendada. Plantex es soluble a una tasa de 2 1/2 - 4 libras por galón de agua. Use agua tibia para una disolución más rápida. Almacene en un lugar fresco y seco.

**CUIDADO:** Este fertilizante contiene boro, cobre, hierro, manganeso, molibdeno y zinc, y debe usarse únicamente según las recomendaciones. Puede ser dañino si se utiliza mal. Este fertilizante debe usarse únicamente en suelos que respondan al molibdeno. No aplicar en cultivos que serán pastoreados por rumiantes. Los cultivos con alto contenido de molibdeno son tóxicos para los rumiantes. Hay información disponible con respecto al contenido y niveles de metales en este producto en el sitio internet <http://www.aapfco.org/metals.htm>

Los micronutrientes en PLANTEX están disponibles en un mayor rango de pH debido a la presencia del agente quelante DTPA y EDTA.

**Water Soluble Fertilizer**

**DANGER**

**Hazard Statement(s):**  
H272 May intensify fire; oxidizer.  
H319 Causes serious eye irritation.

**Precautionary Statement(s):**  
Prevention:  
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.  
P220 Keep or store away from clothing and other combustible materials.  
P221 Take any precaution to avoid mixing with combustibles.  
P264 Wash hands and skin thoroughly after handling.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.

**Response:**  
P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P337 + P313 If eye irritation persists: Get medical advice/attention.  
P370 + P378 In case of fire: Use water spray or fog to extinguish.

**Disposal:**  
P501 Dispose of contents and container in accordance with local, regional, national and international regulations.
