

High Nitrate Low P • Alto Nitrato Bajo P

21-5-20

21-5-20

DIRECTIONS FOR USE: PLANTEX® fertilizer is recommended for use on all plants. For tender plants and greenhouse spray applications use one half the dosage. PLANTEX is soluble at the rate of 2½ - 4 lbs. per gallon of water. Use warm water for best results. Store in a cool, dry place.

CAUTION: This fertilizer contains boron, copper, manganese, molybdenum and zinc, and should be used only as recommended. It may prove harmful when misused. This fertilizer is to be used only on soils which respond to molybdenum. Crops high in molybdenum are toxic to ruminant animals.

Foliar fertilization is intended as a supplement to a regular fertilization program and will not by itself provide all the nutrients normally required by agricultural crops.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

The micronutrients within Plantex are available at a greater pH range due to the presence of EDTA and DTPA chelating agents.

DERIVED FROM: Ammonium nitrate, potassium nitrate, monopotassium phosphate, magnesium sulfate, boric acid, sodium molybdate, Iron DTPA, Iron EDTA, Manganese EDTA, Zinc EDTA, Copper EDTA.

ppm N	Plantex® 21-5-20 (oz / 100 gallons / galones)	oz per gallon / galón of / de stock (1:100 injection ratio) / (1:100 ratio de inyección)	E.C. (mmhos)
50	3.2	3.2	0.36

INSTRUCCIONES DE USO: PLANTEX® fertilizante es recomendado para su uso en toda planta. Para plantas tiernas y aplicaciones de rociador de invernadero, use la mitad de la dosis. PLANTEX es soluble a una tasa de 2 ½ - 4 libras por galón de agua. Use agua tibia para mejores resultados. Almacene en un lugar fresco y seco.

CUIDADO: Este fertilizante contiene boro, cobre, manganeso, molibdeno y zinc, y debe usarse únicamente según las recomendaciones. Puede ser dañino si se utiliza mal. Este fertilizante debe usarse únicamente en suelos que respondan al molibdeno. Cultivos con niveles altos de molibdeno son tóxicos para animales rumiantes.

La fertilización foliar está diseñada como suplemento para un programa de fertilización regular, y no proporcionará por sí sola todos los nutrientes normalmente requeridos por los cultivos agrícolas.

Hay información disponible con respecto al contenido y niveles de metales en este producto en el sitio internet <http://www.aapfco.org/metals.htm>

Los micronutrientes en PLANTEX están disponibles en un mayor rango de pH debido a la presencia del agentes quelantes EDTA y DTPA.

DERIVARSE DE: Nitrato de amonio, nitrato de potasio, fosfato monopotásico, sulfato de magnesio, ácido bórico, molibdato de sodio, hierro DTPA, Hierro EDTA, Manganese EDTA, Zinc EDTA, EDTA cobre.

Water Soluble Fertilizer

DANGER

Hazard Statement(s):
 H272 May intensify fire; oxidizer.
 H319 Causes serious eye irritation.
 H351 Suspected of causing cancer.
 H360 May damage fertility or the unborn child.

Precautionary Statement(s):

P201 Obtain special instructions before use.
 P202 Do not handle until all safety precautions have been read and understood.
 P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
 P220 Keep or store away from clothing and other combustible materials.
 P221 Take any precaution to avoid mixing with combustibles/
 P264 Wash hands and skin thoroughly after handling.
 P280 Wear protective gloves/protective clothing/eye protection/face protection.
Response:
 P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
 P308 + P313 IF exposed or concerned: Get medical advice/attention.
 P337 + P313 If eye irritation persists: Get medical advice/attention.
 P370 + P378 In case of fire: Use water spray or fog to extinguish.
Storage:
 P405 Store locked up.
Disposal:
 P501 Dispose of contents and container in accordance with local, regional, national and international regulations.
